*Zubair Khaliq (Director/Multiline) an official visit to the Perkins/Caterpillar factory at Peterborough/United Kingdom*

**Multiline imports all Perkins stock directly from UK. Each Engine can be individually verified for authenticity. No worries for the clients. No mixing and matching!!! No Confusions**

Perkins Engine  
Made in UK

Deep sea controller made in UK

Mecc Alte Alternator  
made in UK

**"100% UK Origin Guaranteed"**

**Complete Range is  
available. Ready Stock**

Cummins Inc. is an American Fortune 500 corporation that designs, manufactures, and distributes engines, and power generation products. Headquartered in Columbus, Indiana, United States, Cummins sells in approximately 190 countries and territories through a network of more than 600 company-owned and independent distributors and approximately 6,000 dealers. Cummins, CT, NT and KT series engines have a highly successful reputation in Pakistan for reliability and retention of value. Internationally the diesel fuel quality has improved tremendously but unfortunately the same quality diesel is not available in Pakistan yet. These engines provide maximum performance even with compromised fuel quality and keep up the performance. Much suited for industrial applications all over the country.

Acoustic Meter 60dB(a)

**The quietest generator less than  
65dB(a) noise level whisper quiet.**

- “Zero Noise Pollution” “Super quiet”
- Measurement done by the technical team of Mobilink
- “Available in 14kVA & 20kVA only”

**“Building  
better  
products  
through  
research”**

## The art of generator canopy making:

Traditionally generator canopies are large rectangular box-like enclosures that are placed on top of generating sets to protect them from the effects of environment and to reduce the noise that is emitted from the diesel engine. From the outside most canopies look pretty much the same but there are significant technical challenges and several design approaches. Many generator suppliers outsource the canopies to a third party and once the generator is installed, canopy is placed on top of it, to do the needful. Use of this approach makes the enclosures significantly large and not

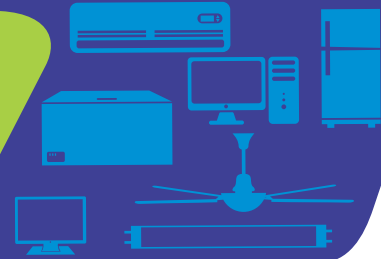

entirely built to the acoustic footprint of the particular engine. Thus the noise levels are high and the enclosures are bulky and unsightly.

We have our own fabrication and R&D facility. Being an engineering company to the core, we have spent countless hours trying out canopies with varied designs. We do sound level measurements and make sure that the air-flows are sufficient for cooling in high temperature. We collaborated with one of best Italian canopy makers in the world and used their acoustic modeling experience to improve our designs,

while making our modifications to get perfect air-flows suitable for our weather conditions. The end results are fabulous and practically the noise level is non-existent. You have to see a running sample at our office to believe the results. These have already been deployed by both Warid and Mobilink on their telecom BTS sites in populous areas where high noise levels can disturb the residents. Homes can benefit from this too..

Please coordinate a visit to our office to see.....

## Renewables (Solar)

**“Initially  
offering with free  
one year service  
contract”**

**Battery Monitoring**

**Panel cleaning**

**Inverter**

**Cabinet**

**Filters**

## SPOTLIGHT ON OUR EMPLOYEES

**Azam Bashir Kamal**

Azam Bashir Kamal has worked with Multiline for almost 7 years. He is now one of the key persons in our sales department (Rental Division). His friendly, yet professional approach to client has produced very positive results.

**Mirza Fawad**

Mirza Fawad is a young and enthusiastic assistant sales manager at Multiline Engineering Co. He has a business management degree from UMT. He was hired as a sales executive four years ago and eventually got promoted to his current position only because of his sheer talent. As a salesperson, he considers himself a bridge between the company and the client rather a plain profit making asset.

**Somia Korai**

Somia Korai has 6 years of experience in increasingly responsible roles within marketing at Chinavasion and Rider Wear. She is managing business development at Multiline. Somia is responsible for the overall marketing strategy and execution of plans for the existing products.

**Zeeshan Qureshi**

Muhammad Zeeshan Qureshi, Our Business Relationship Manager BBA (HONS) did specialization in marketing & entrepreneurship from University of Central Punjab (UCP) joined Multiline Engineering Co. On January 2016 in our sales department. His goals are facilitating good relationships so that the business maximizes the value of its relationships and maintains a good reputation overall.

### 14kVA Perkins (made in UK)

- \* 1500 RPM-Diesel
- 1 Year Original Warranty
- Super Silent & weatherproof Canopy
- Lowest Running Cost of Rs.100/hour
- 3ACs + Complete Household Load

### 20 kVA Perkins (3.152)

- \* 1500 RPM-Diesel
- 1 Year Original Warranty
- Super Silent & weatherproof Canopy
- Lowest Running Cost of Rs.150/hour
- 5ACs + Complete Household Load

### Branded Portable Generators

- \* Limited Time offer on Portables!
- Branded Portable Generators
- 3000 RPM-Diesel/Petrol
- Air- Cooled
- 1 Year Warranty
- 1 AC + Household Load

# PRODUCT RANGE

**Multiline** is one of the largest suppliers of Line Conditioning and Power Protection equipment to the telecom industry in Pakistan. Our equipment is installed at over 10,000 BTS sites country wide and we provide on-site service and maintenance of our equipment, meeting the most stringent requirements of the telecom industry. On the other hand Multiline's Generator Division is one of the trusted brands for domestic and commercial users with more than 6500 installations of branded generating sets most of which are serviced by us.

## Generator Product Range

**Cummins**

100kVA to 1250kVA

1500 RPM, water cooled, rugged diesel generating sets

**Perkins (UK)**

13 kVA to 1250 kVA

100% European origin guaranteed

**Pramac (Italy)**

6.5 kVA / 11 kVA

Petrol / Gas Generators

**Yamaha**

0.8 kVA - 10 kVA

Petrol / Gas Generators

**Sincro Alternators**

(Complete Range)

Imported from Italy, Available from 11 kVA to 2000 kVA

**Solar Solutions**

Generator Sales  
"Ready Stock"

Commissioning  
& Installations

Corporate  
Gensets Rentals

Service & Parts

Annual Maintenance  
Contract

"CKD sets" Engines,  
Alternators & Accessories

## Telecom Power Products

**Line  
Conditioners**  
For BTS Sites

**Isolation  
Transformers**

**Isolated  
Line Conditioners**  
For BTS Sites

**Customized Products**  
For Energy  
Conservation

**Generator  
Management  
Module GMM01**

**Free Cooling  
Solutions**  
For BTS Sites

**IPS Cabinets**  
For BTS Sites
